

Chop Suey Hut Allergen List

We have compiled a list of allergens that are in our products to help better serve our customers. Please note that our facility does prepare and serve products containing: wheat, milk, eggs, fish, shellfish, peanuts, soybeans and gluten. If you have an allergy, please ask for a manager when placing your order so we can help you with your dining selections and to insure there are no allergens in your order. Many of our menu items can be prepared without the above mentioned allergens. Our online ordering gives you options to choose dietary and allergen requests as well. We offer over 100 dairy free items, over 50 gluten free options and 8 vegan options. We are currently working on adding more vegan options. Please inquire and be sure to mention any allergens when placing your order. Depending upon your allergy and what item you are interested in—advanced notice may be required. You may also contact us at chopsueyhutrestaurant@gmail.com if you have any questions or concerns.

Special Notes:

If you have an allergy to peanuts please note that our deep fried items are fried in the same oil that our Egg Rolls are fried. Our Egg Rolls contain peanuts.

If you have a soy allergy please note that many of our dishes include soy sauce in the gravies and sauces. Please speak with a manager to inquire which items can be made without soy.

When requesting gluten free items, we will substitute the soy sauce for gluten free tamari when called for in a recipe. The corresponding sauce will be lighter in color as our dark soy (which contains gluten) gives the sauce the darker rich color.

When requesting vegan dishes, note that we use a bone broth as a base for our sauces. We will substitute the bone broth for a vegetable broth for vegan requests.

Appetizers

Egg Rolls (dairy free, contains wheat and nut products)
